I gave an update to Ruhl yesterday but in case you get any questions on Amarillo Phosphine.

The Special Crimes Unit made entry into the house yesterday. Air monitoring readings in house and crawlspace have indicated 0 the last few days. Weevil-Cide material being deactivated in the backyard seems to be finally coming down the last 3 days from 1000ppm to 125 ppm and 30ppm yesterday. IDLH is 50 ppm. Concern with deactivating material is numbers have not been consistent. Hope this new downward trend will be the norm. Thanks.
